

Aptelligent/Splunk Integration

Easily Integrate Aptelligent's Best-of-Breed Mobile App Intelligence Data into Splunk

“Splunk is the nerve center for our operations. Now through this integration, our entire technical team can access Aptelligent’s rich mobile insights alongside other data about our technical operations.”

GROUPON

With the Aptelligent and Splunk integration you can now view Aptelligent’s rich mobile app intelligence data directly within Splunk. The integration combines Aptelligent’s leading mobile app intelligence with Splunk’s operational intelligence for complete end-to-end visibility into your operational infrastructure. Aptelligent mobile operational and performance insights allow you to proactively resolve mobile app issues before they impact your business. All of Aptelligent’s rich data including crash, servicing monitoring and breadcrumbs data is automatically indexed in Splunk and can be viewed in pre-built dashboards

Download the Aptelligent /Splunk Connector App

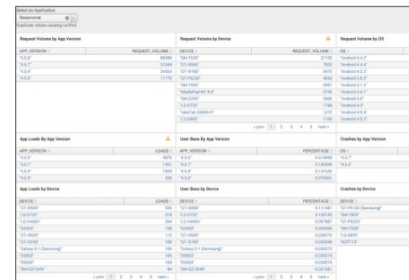

The Aptelligent /Splunk Connector app can be downloaded at splunkbase. The app retrieves data from the Aptelligent API creating a special Aptelligent data index within Splunk. For complete instructions and documentation visit Aptelligent’s Integrations site.

About Splunk

Splunk Inc. is the market-leading platform that powers Operational Intelligence. Splunk pioneers innovative, disruptive solutions that make machine data accessible, usable and valuable to everyone. More than 10,000 customers in over 100 countries use Splunk software and cloud services to make business, government and education more efficient, secure and profitable.
